MobilSense Technologies, Inc. shortlisted for 20 Most Promising Enterprise Mobility Solution Providers 2016 Ranking by CIOReview

FREMONT, CA (Jun 28, 2016) - We are pleased to announce that MobilSense Technologies, was chosen among the 20 Most Promising Enterprise Mobility Solution Providers 2016 by CIOReview.

CIOReview selected MobilSense Technologies as one of the 20 Most Promising Enterprise Mobility Solution Providers of 2016 based on the company's specialties in providing mobile expense management solutions for medium to large size businesses. Its recently launched MobilSentryDIY™ is the industry's first automated Mobile Expense Management (MEM) solution for the Midmarket. This revolutionary, self-service packaging provides midsize companies with a long-awaited capability that delivers powerful analytics and optimization technology in a unique ROI-based pricing model favoring Midsize budgets. MobilSense offers a full suite of solutions in the areas of invoice optimization, cost allocation management, online provisioning, help desk, visibility and reporting, and employee accountability.

"The companies selected for our 20 Most Promising Enterprise Mobility Solution Providers 2016 list are an elite group of companies whose products and solutions are changing their respective industries," said Jeevan George, Managing Editor of CIOReview. "We are proud to feature MobilSense Technologies, Inc. in this edition for its range of revolutionary solutions that is setting a new benchmark in the enterprise mobility arena."

About MobilSense Technologies, Inc.

MobilSense Technologies Inc, based in Agoura Hills, CA was founded in 2001 to deliver a premier wireless management solution. Focused on serving the enterprise wireless management needs, MobilSense combines vision, technology and experience to deliver a fully automated solution. MobilSense believes in empowering the enterprise with technology based automation for repeatable business processes and bringing the best mix of automation and human processes to manage and control wireless assets.
