7

Select **Scan Token Now**

If you have your device with you right now, you can import your token directly via the RSA Token application on your device if installed. If you do not wish to import now click the **Email Token** button and you will be sent an activation email.

Click on **Scan Token Now** to pull up the correct QR Code

This will take you to the active QR code screen

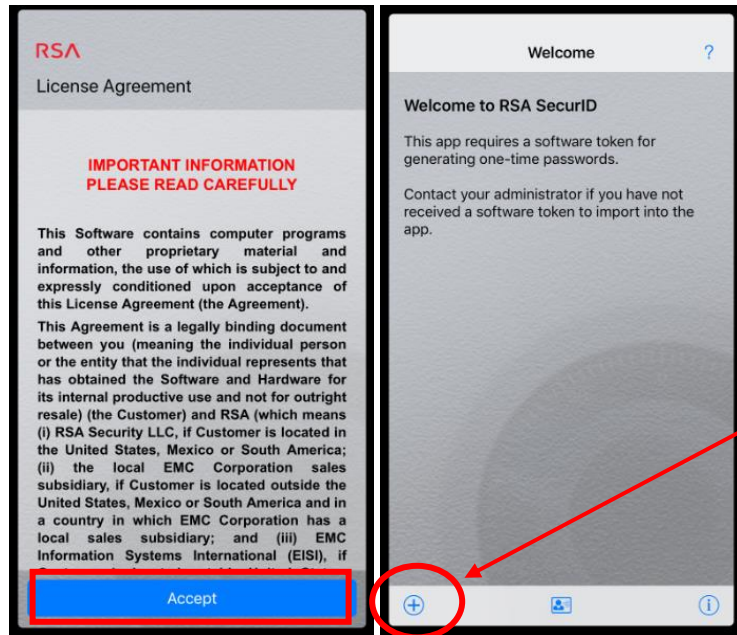

Attempting to scan the QR Code on the Delivery Method screen will not work. This is only an example QR Code

8

Open the **RSA SecurID Software Token** app on your iPhone

9

**Accept** the License Agreement  
Select the “+” Sign in the bottom left corner of the screen

10

Select **Scan QR Code**  
Select “OK” to allow the Camera Access

- Aim the camera "lens" at the QR code on your desktop/laptop screen
- Token is should then imported
